Shubham Bhat

EDUCATION

Bachelor's Of Engineering In Information Technology

PDEA's College Of Engineering, Manjari • Pune, Maharashtra • 2026

High School

Minor in Computer Science • Kendriya Vidyalaya No.2 • Srinagar, Jammu And Kashmir • 2022 • 8.5

EXPERIENCE

President

CodeX Club

August 2024 - Present, Pune,India

- Leading and managing Club, initiatives to foster a strong Cybersecurity community on campus.
- · Organized workshops, Hackathons, sessions equipping students with practical skills and knowledge.

Contributor

GirlScript Summer of Code

October 2024 - November 2024, Remote

- Contributed to various open-source projects, demonstrating my technical skills.
- Ranked #841 among 40,000+ Global Coders.

Management Lead

CodeLite

July 2024 -November 2024, Pune,India

• Enhanced participants technical and problem-solving skills in Cybersecurity by providing constructive feedback and continuous mentorship.

IBM SkillsBuild AI/ML Intern

Edunet Foundation

June 2024 - September 2024, Remote

• identifying potential security threats and automating the identification of suspicious activities. Engineered and deployed machine learning models that increased predictive accuracy by 30%, utilizing Python libraries such as TensorFlow and scikit-learn

PROJECTS

Security Operations Center (SOC) Dashboard

November 2024 - Present

- Developing interactive dashboards using JavaScript,MySQL,IBM SOAR,Splunk.
- Visualizes real-time security data, resulting in a 25% reduction in mean time to detect (MTTD) security incidents.

Decentralized Crowdfunding Platform

November 2024 - Present

- Currently developing a decentralized crowdfunding platform using the Aptos blockchain
- Implementing security protocols to protect user data, funds mirroring best practices in cybersecurity.

Packet Sniffer

August 2024 - August 2024

 $\bullet \ \ Developed \ a \ network \ security \ tool \ using \ Python \ (ScaPy, \ Pyshark, \ Socket) \ to \ capture \ and \ analyze \ network \ packets.$

SKILLS

Programming Languages: Python, C++, C

Tools / Platforms: Git, VS Code, Vercel, GitHub, Linux, Kali Linux

Cloud/Databases: SQL, MongoDB, Azure, GCP

Soft Skills: Teamwork, Communication, Leadership, Decision Making

CERTIFICATIONS

Getting Started with Threat Intelligence and Hunting

IBM • 2024

• Developed skills in creating threat models and conducting investigations to improve organizational security posture

Google Cybersecurity Specialization

Google • 2024

• Acquired knowledge of cybersecurity best practices and protocols to protect systems and data from cyber threats.

Security Operations Center in Practice

IBM • 2024

 $\bullet \ \ Gained \ hands-on \ experience \ with \ SOC \ tools \ and \ techniques \ for \ incident \ response, \ log \ analysis, \ and \ security \ monitoring.$
